North Edge CRM

Enterprise CRM Platform — At a Glance

North Edge System · Toronto, Canada · www.northedgesystem.com · March 2026

What Is It?

North Edge CRM is a **modern, all-in-one CRM platform** that combines sales, marketing, customer support, and AI intelligence into a single system — built for mid-market and enterprise businesses.

Key Capabilities

Area	What You Get
Sales & Pipeline	Lead management, opportunity tracking, quote generation, deal approvals, and automated renewals
AI Intelligence	AI-powered lead scoring, smart assistant with action execution, campaign recommendations
Marketing	Campaign management, attribution tracking, health scoring, email templates
Help Desk	Support ticketing, queue management, SLA enforcement, automatic escalation
Automation	Visual drag-and-drop workflow builder, approval chains, background task processing
Reports	Built-in report designer, customizable dashboards with 18 widget types
Email	Full Microsoft 365 & Gmail integration (send, receive, sync)
Team Chat	Built-in real-time messaging — no need for separate tools
Security	Role-based access (29 permissions), multi-tenant isolation, full audit trail

---

Why North Edge?

Advantage	Detail
All-in-One	Sales + Marketing + Support + AI — no need to buy and integrate multiple products
Smart AI	3-tier AI scoring with automatic fallback ensures AI always works, even during outages
Real-Time	Live dashboards, instant notifications, presence tracking — your team sees changes as they happen
Enterprise Ready	Multi-tenant, granular permissions, approval workflows, SLA enforcement
Modern Tech	Built on Angular 21 + .NET 10 — fast, secure, and future-proof

---
